Poker Terminology (it's a language)

Term	Acronym	Definition
Raise First In	RFI	Folds to you and you voluntarily raise
3Bet	3b, 3!	re-raise an initial opening raise
4Bet, 5Bet, etc..	4b/4!, 5b/5!, …	4Bet: re-raise a 3Bet, 5Bet: re-raise a 4Bet, etc…
Limp		Call the Big Blind preflop instead of raising or folding
Cold Call	CC	Call a raise or re-raise without having previously voluntarily put money into the pot
Big Blind	BB	The unit of measurement in poker. (substitute for $)
Heads Up	HU	2 players in the pot
Expected Value	EV	Statistical measure of how much money you can expect to win or lose on average by making a specific decision.
Nuts		Best possible hand

LAST TIME: Pot Odds

Equity Required = Bet / (Pot + 2*Bet)

Today: Implied Odds

Equity Required = Bet / (Pot + 2*Bet + Future EV)

Application:

- Better Draws increase in value the more chips that are in you and your opponents' stacks.

Add the $ amount you expect to win if you complete your draw, adjusted for equity, to the final pot.

Guess the Stake and Writing Hands

- The goal of this exercise is to see the difference in skill of high and low stakes poker
  - Spotting the difference can help point you towards better gameplay
- We will watch a hand, and then guess whether it's from 50/100 (10kNL) or 0.05/0.10(10NL)
  - Then we will show how to write the hand history on your phone
